INVESTMENT AND TRADE FACILITATION

10 REDUCED
INEQUALITIES

OBJECTIVES

This programme explores the strong linkage between investment and trade-related strategies and its contributions to economic growth. Participants will be exposed to the processes of developing holistic and integrated financial support to attract foreign investment.

SYNOPSIS

- Singapore's policy development for investment
- Role of government in attracting investment
- Trade development and facilitation strategies
- Overcoming trade obstacles and implementing regulatory practices

Applicant's Profile

Senior-level officials involved in the formulation of foreign trade and investment policies

Scheduled Dates

29 January to 2 February 2018

Closing Date for Nominations

18 December 2017

GREENERY PLANNING AND BIODIVERSITY CONSERVATION

OBJECTIVES

Singapore's Garden City journey began in 1963. Since then, the city landscape has evolved and transformed to one where greenery is a major feature. This programme is designed to provide insights on Singapore's greenery planning and management. Participants will learn about urban biodiversity conservation and associated policies through a case study on the Singapore Botanic Gardens, a UNESCO World Heritage Site.

SYNOPSIS

- Singapore's transformation into a City in a Garden
- Parks development and management
- Management of urban greenery
- Conservation and management of biodiversity and urban greenery

Applicant's Profile

Senior-level policy-makers involved in developing and managing city greenery and urban biodiversity conservation

Scheduled Dates

16 to 19 January 2018

Closing Date for Nominations

5 December 2017

AIRCRAFT ACCIDENT INVESTIGATION MANAGEMENT

17 PARTNERSHIPS
FOR THE GOALS

OBJECTIVES

In the event of an aircraft accident, participants in formal investigations require knowledge of the investigation process in order to provide accurate and timely assessment reports. This course provides an understanding of aircraft accident investigation processes to equip participants with skills to support or participate in formal investigation.

SYNOPSIS

- Management of aircraft accident investigation
- Participation and support in formal investigation
- Safety programme management
- International requirements for aircraft accident investigation

Applicant's Profile

Personnel involved in accident investigations from civil aviation administrations, airport authorities, air navigation service providers, and ministries responsible for accident investigation

Scheduled Dates

26 February to 2 March 2018

Closing Date for Nominations

15 January 2018

PORT DEVELOPMENT AND COMPETITIVENESS

8 DECENT WORK AND ECONOMIC GROWTH

OBJECTIVES

Successful port development has generated wider economic benefits such as job creation and infrastructure development for Singapore. Drawing from Singapore's experience and policies in developing its port sector, this course will help participants understand the port's key role in Singapore's economy, and how to better shape policies to ensure continued port competitiveness.

SYNOPSIS

- International trade and shipping
- Importance of the port industry
- Port competition and competitiveness
- Strategic planning and port development
- Port cluster dynamics and promotion
- Port financing and pricing
- Risk management for the port sector
- Port operations and management

Applicant's Profile

Senior policy-makers involved in formulating and implementing maritime and port development policies

Scheduled Dates

8 to 12 January 2018

Closing Date for Nominations

27 November 2017

AVIATION SECURITY AUDITING TECHNIQUES AND DEVELOPING SECURITY MANUALS

9 INDUSTRY, INNOVATION
AND INFRASTRUCTURE

OBJECTIVES

Aviation safety and security rules are regularly updated to address evolving risks faced by aircraft passengers and crew. With an understanding of the global aviation security framework, participants will learn how to develop and conduct effective compliance audits. They will also acquire the tools to develop security manuals in line with ICAO Annex 17 (Security) and ICAO Document 8973 (Security Manual).

SYNOPSIS

- Global aviation security framework
- ICAO Annex 17 and ICAO Document 8973
- Security auditing
- Auditing techniques and reporting
- Post-audit follow up
- Inspections, surveys and testing
- Security manuals

Applicant's Profile

Personnel responsible for aviation security operations and management from civil aviation administrations, airport authorities, and aviation security related

Scheduled Dates

22 to 26 January 2018

Closing Date for Nominations

11 December 2017

E-GOVERNMENT LEADERSHIP

OBJECTIVES

The Singapore e-Government journey began more than 30 years ago in the 1980s, tapping on information technology to transform Singapore's approach to government. The course discusses effective applications of e-Government leadership and its best practices.

SYNOPSIS

- Technology and good governance
- Qualitative and quantitative trends and drivers analysis techniques
- Background, history of cyber threats
- Data-driven decision-making
- Future trends in digitalisation and government digital services
- Frameworks for service transformation
- Policy challenges and opportunities in the digital environment

Applicant's Profile
